THIRD QUARTER OF 2005**

Retail Holdings N.V. (Symbol: SNGR)

Retail Holdings N.V. ("Singer" or "the Company") announced today its results for the third quarter of 2005.

2005 Third Quarter Results

For the third quarter of 2005 ended September 30, 2005, the Company reported consolidated revenues of \$67.5 million compared to \$59.9 million for the third quarter of 2004, an increase of \$7.6 million or 12.7%. The increase in revenues was primarily due to strong retail sales at almost all of the major Retail operating units in Asia, particularly in Sri Lanka, Thailand and Bangladesh. India's sales, however, were substantially below prior year. Excluding India, the Company would have shown an 18.9% revenue increase for the quarter.

The Company's revenues for the third quarter of 2005 include \$13.7 million of finance earnings on consumer credit sales compared to \$10.3 million in the third quarter of 2004. The increase in finance earnings is due primarily to increased credit sales in Thailand and Sri Lanka as a result of strong retail sales and promotion of credit, including longer average credit terms.

Gross profit for the three months ended September 30, 2005 was \$27.9 million, representing a gross profit as a percentage of revenues of 41.3%, as compared to \$24.3 million and a gross profit percentage of 40.5% for the three months ended September 30, 2004. The slight increase in gross profit percentage is primarily due to the increase in credit sales.

Selling and administrative expenses for the three months ended September 30, 2005 were \$26.2 million, representing 38.9% of revenues, as compared to \$25.0 million and 41.7% of revenues for the three months ended September 30, 2004. The decrease in selling and administrative expenses as a percentage of revenues is primarily due to the ongoing efforts to reduce corporate administrative positions as a result of the sale of the Sewing business and trademark. This was offset, in part, by India's significant decline in revenues without a corresponding decrease in fixed selling and administrative expenses. Excluding India, selling and administrative expenses as a percentage of revenue would have been 38.0% in the 2005 third quarter as compared to 41.0% in the 2004 third quarter.

Operating income for the three months ended September 30, 2005 was \$1.6 million as compared to a loss of \$0.7 million for the same period in 2004, while EBITDA (earnings before interest expense, taxes, depreciation and amortization) from continuing operations was \$4.2 million and

\$0.6 million, respectively. The \$2.3 million increase in operating income and \$3.6 million increase in EBITDA were due to improved performance in Sri Lanka and the reduction in Corporate overhead expense. The increase in EBITDA also reflects an increase in other income.

Singer India has incurred substantial losses over the last several years. These losses are primarily a result of the inability of the operation through new initiatives to generate adequate sales volume, coupled with the high turnover of personnel, increased competition and, during 2004 and continuing into 2005, a severe liquidity crunch reflecting the impact of prior losses. On May 31, 2005, Singer India was registered as a "Sick Company" by the BIFR pursuant to the Sick Industrial Companies (Special Provisions) Act, 1985 of India. The registration provides certain legal protection against creditors.

There can be no assurance that BIFR registration or any other steps being taken by Singer India will permit a successful reorganization of that company. The survival and restructuring of Singer India will require the support and assistance of Singer India's banks and other stakeholders, which support has so far not been forthcoming. The Company has not guaranteed any debt or any other obligations of Singer India and has no legal obligation to provide any financial support.

Singer has established a new wholly owned subsidiary in India, which together with a third party distributor, will take on the role of distributing sewing machines and small appliances on a wholesale basis in India. Residual sourcing and retail activity may continue to be carried on by a smaller and more focused Singer India. Singer is also seeking to reduce its ownership stake in Singer India. Should a sufficient stake be sold and Singer India be deconsolidated, the Company would recognize a significant accounting gain from the reversal of prior losses in excess of that company's equity.

Interest expense was \$2.8 million and \$2.1 million for the three-month periods ended September 30, 2005 and 2004, respectively. The increase in interest expense reflects the increased financing required to support the increased installment receivables as a result of higher sales and promotion of credit, including longer average credit terms in Thailand and Sri Lanka.

Equity earnings from Operating Affiliates totaled \$0.5 million and \$0.2 million for the three-month periods ended September 30, 2005 and 2004, respectively. The \$0.3 million improvement was primarily due to increased income from an operating affiliate in Bangladesh.

Royalty expense was \$0.7 million and \$0.6 million for the three-month periods ended September 30, 2005 and 2004, respectively. The increase in royalty expense is due to increased revenues at Singer Asia. The royalty expense is for the use of the SINGER® trademark by the Retail Operating Companies in Asia.

Miscellaneous other income was \$1.7 million for the three-month period ended September 30, 2005 as compared to other income of \$0.2 million for the same period in 2004. Other income in 2005 includes a \$1.1 million gain resulting from a legal settlement of an outstanding obligation recognized as part of Singer's Reorganization in 2000 and \$0.7 million in interest income from investments and the KSIN and Jamaica notes receivable.

Provision for income taxes amounted to \$0.5 million in the three-month period ended September 30, 2005, as compared to a \$2.0 million tax provision for the same period in 2004. The \$1.5 million decrease in provision for income taxes primarily reflected the need to provide an additional valuation reserve of \$1.2 million for deferred taxes in India and the Philippines in 2004 and no such requirement this period.

Minority interest share in losses was \$0.3 million for the 2005 third quarter compared to \$0.9 million for the same period in 2004. The decrease in minority interest share in losses was primarily due to increased profitability in the Retail operating units in Asia, particularly in Sri Lanka and Bangladesh.

The Company's income from continuing operations was \$0.2 million for the three months ended September 30, 2005 as compared to a loss of \$4.2 million in 2004. The improvement in income from continuing operations of \$4.4 million was primarily due to improved performance at the operating units, particularly in Sri Lanka and the Philippines, the increase in miscellaneous other income and reduction in corporate overhead expense.

Income from discontinued operations for the three months ended September 30, 2005 was \$nil as compared to income of \$2.4 million for the same period in 2004. The income from discontinued operations in 2004 was primarily due to income from operations of the Sewing business and trademark that were sold as part of the KSIN transaction.

The net income available to common shares for the three months ended September 30, 2005 was \$0.2 million as compared to a net loss of \$1.8 million for the same period in 2004. This is equivalent to basic and diluted income per common share of \$0.03 for the three months ended September 30, 2005 as compared to a net loss of \$0.23 per common share for the same period in 2004.

2005 Nine Months Results

For the nine months ended September 30, 2005, the Company reported consolidated revenues of \$231.4 million compared to \$193.0 million for the same period in 2004, an increase of \$38.4 million or 19.9%. The increase in revenues was primarily due to strong retail sales at almost all of the major Retail operating units in Asia, particularly in Thailand, Sri Lanka and Bangladesh. India's sales, however, were substantially below prior year. Excluding India, the Company would have shown a 29.3% revenue increase for the nine months.

The Company's revenues for the nine months ended September 30, 2005 include \$40.1 million of finance earnings on consumer credit sales compared to \$30.3 million for the same period in 2004. The increase in finance earnings is due primarily to increased credit sales in Thailand and Sri Lanka as a result of strong retail sales and promotion of credit, including longer average credit terms.

Gross profit for the nine months ended September 30, 2005 was \$89.0 million, representing a gross profit as a percentage of revenues of 38.5%, as compared to \$76.6 million and a gross profit percentage of 39.7% for the nine months ended September 30, 2004. The slight decline in

gross profit percentage is primarily due to a shift in Thailand's sales mix from appliances to motorcycles, which have a lower gross profit contribution.

Selling and administrative expenses for the nine months ended September 30, 2005 were \$80.8 million, representing 34.9% of revenues, as compared to \$71.7 million and 37.1% of revenues for the nine months ended September 30, 2004. The decrease in selling and administrative expenses as a percentage of revenues is primarily due to Thailand's significant sales increase which exceeded the increase in Thailand's fixed selling and administrative expenses and a reduction in corporate overhead expense. This was offset, in part, by India's significant decline in revenues without a corresponding decrease in fixed selling and administrative expenses. Excluding India, selling and administrative expenses as a percentage of revenue would have been 34.0% in the nine months ended September 30, 2005 as compared to 37.4% for the same period in 2004.

Operating income for the nine months ended September 30, 2005 and 2004 was \$8.2 million and \$4.9 million, respectively, while EBITDA from continuing operations was \$10.1 million and \$4.8 million, respectively. The \$3.3 million increase in operating income and \$5.3 million increase in EBITDA were due to improved performance at the operating units, particularly in Sri Lanka and the Philippines, coupled with a reduction in Corporate overhead expense.

The losses incurred at Singer India and the status of that company and of Singer's operations in India are reviewed in detail in the discussion of the three months results, above.

Interest expense was \$7.1 million and \$6.2 million for the nine-month periods ended September 30, 2005 and 2004, respectively. The increase in interest expense reflects the increased financing required to support the increased installment receivables as a result of higher sales and promotion of credit, including longer average credit terms in Thailand and Sri Lanka.

Equity earnings from Operating Affiliates were \$0.4 million during the nine-month period ended September 30, 2005 as compared to a loss of \$0.6 million for the same period in 2004. The \$1.0 million improvement was primarily due to lower losses at First Capital Ltd., an operating affiliate in Sri Lanka.

Royalty expense was \$2.3 million and \$1.9 million for the nine-month periods ended September 30, 2005 and 2004, respectively. The increase in royalty expense is due to increased revenues at Singer Asia. The royalty expense is for the use of the SINGER® trademark by the Retail Operating Companies in Asia.

Miscellaneous other income was \$2.9 million for the nine-month period ended September 30, 2005 as compared to other income of \$1.7 million for the same period in 2004. Other income in 2005 includes \$2.1 million in interest income from investments and the KSIN and Jamaica notes receivable, a \$1.1 million gain resulting from a legal settlement of an outstanding obligation and a \$0.5 million gain on sale of property, which was partially offset by foreign exchange losses of \$1.1 million. The other income for 2004 was primarily gains on sale of property in Thailand and Indonesia.

Provision for income taxes amounted to \$3.3 million in the nine-month period ended September 30, 2005, as compared to a \$4.6 million tax provision for the same period in 2004. The \$1.3 million decrease in provision for income taxes is primarily due to the absence in 2005 of the need for an additional valuation reserve for deferred taxes as compared to a provision of \$1.2 million in 2004.

Minority interest share in income was \$1.2 million for the 2005 period compared to \$1.4 million for the same period in 2004. The decrease in minority interest share in income was primarily due to the lower net income at Singer Asia.

The Company's loss from continuing operations for the nine months ended September 30, 2005 and 2004 was \$2.4 million and \$8.2 million, respectively. The improvement of \$5.8 million is primarily due to the increase in operating income coupled with the increase in miscellaneous other income and decrease in the income tax provision.

Loss from discontinued operations for the nine months ended September 30, 2005 and 2004 was \$0.4 million and \$22.3 million respectively. The loss in 2005 was due to the loss on the sale of Jamaica, net of earnings from operations, of \$1.7 million, and additional termination benefits of \$1.0 million, which were offset, in part, by the final post closing purchase price adjustment relating to the KSIN transaction, which resulted in a gain of \$2.3 million. The loss from discontinued operations in 2004 was primarily due to the loss on sale of the Sewing business and trademark, the KSIN transaction, of \$36.4 million, which was partially offset by earnings from operations of the Sewing business and trademark prior to sale of \$13.7 million.

The net loss available to Common Shares was \$2.8 million and \$30.5 million for the nine months ended September 30, 2005 and 2004, respectively. This is equivalent to basic and diluted loss per Common Share of \$0.48 and \$3.88, respectively.

Chairman's Comments

Commenting on recent developments, Stephen H. Goodman, Singer's Chairman, President and Chief Executive Officer remarked, "I am encouraged by the Company's improved profitability in the third quarter. Performance at Singer Asia, the Company's only remaining operating business, continued to improve with revenues and profits up significantly from prior year. Singer's EBITDA (earnings before interest expense, taxes, depreciation and amortization) from continuing operations increased from \$0.6 million in the third quarter of 2004 to \$4.2 million this quarter.

"Singer also was successful during the quarter in acquiring, as part of the Company's ongoing stock repurchase plan, 663,803 shares of Singer Common Stock through negotiated and open market transactions, including 662,089 Shares purchased from a subsidiary of Old Singer in liquidation. Since the Company's emergence pursuant to the Reorganization Plan in September 2000, Singer has reduced the number of shares and options outstanding from 8,780,355 to 5,520,036 as of September 30, 2005."

About Retail Holdings N.V. ("Singer")

Retail Holdings N.V., formerly known as Singer N.V., was formed as a new corporate entity in the Netherlands Antilles in December 1999. Pursuant to the Reorganization Plan under Chapter 11 of the United States Bankruptcy Code, effective September 14, 2000, Singer became the parent company of several Operating Companies formerly owned by The Singer Company N.V. The name of the Company was changed from Singer N.V. to Retail Holdings N.V. following the Company's Annual General Meeting on August 18, 2005; the name change was required as a consequence of the KSIN Transaction.

The Singer Retail business in Asia, the only operating business remaining following the completion of the KSIN Transaction and the sale of Singer Jamaica, consists primarily of the distribution, through Company-owned retail stores and direct selling, of a wide variety of consumer durable products in selected emerging markets in Asia. Retail sales activities in these markets are strengthened by the offer of consumer credit services provided by the Company to its customers. In some markets where it operates, Singer is recognized as a leading retailer of products for the home.

The Company does not anticipate that its Common Shares will be listed on any U.S. or overseas securities exchange, the NASDAQ National Market System, the NASDAQ Small Cap Market, the OTC Bulletin Board or a similar trading system. Price quotations for the Company's Common Shares are available on the "Pink Sheets" quotation service under the symbol "SNGR". Brokers should be able to continue trading Singer's Common Shares using the "Pink Sheets" quotation service as long as the Company is current in submitting to the Securities and Exchange Commission ("SEC") the materials that it makes available to its shareholders or is required to file under its own country jurisdiction. If the Common Shares cease to be traded, shareholders seeking to sell or buy Shares will only be able to do so with considerable difficulty and at prices that may not reflect the Shares' theoretical inherent value. Even to the extent that quotations on the "Pink Sheets" service continue, there is no assurance that there will be adequate liquidity or that there will not be wide swings in prices and significant differences between "bid" and "asked" prices, which will make trading difficult and could cause prices for the Company's Common Shares to deviate substantially from their theoretical inherent value.

Additional financial and other information about the Company, including: a copy of Singer's audited consolidated financial statements for the twelve months ended December 31, 2004, 2003, 2002, and 2001 and for the three months ended December 31, 2000, together with the Auditor's Reports thereon; the 2004 Annual Report dated April 2005, and the prior Disclosure Statements and Reports dated April 2004, April 2003, May 2002 and September 2001; and copies of all quarterly reports and press releases since the conclusion of the Chapter 11 proceedings in September 2000, may be found at the investor section of the Company's website at **www.retailholdings.com**.

RETAIL HOLDINGS N.V.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****(in thousands of US dollars, except share and per share amounts)****1. BUSINESS AND ORGANIZATION**

Retail Holdings N.V. ("Singer" or the "Company"), formerly known as Singer N.V., was formed as a new corporate entity in the Netherlands Antilles in December 1999. Pursuant to the Reorganization Plan under Chapter 11 of the United States Bankruptcy Code, effective September 14, 2000, Singer became the parent company of several Operating Companies formerly owned by Old Singer. The name of the Company was changed from Singer N.V. to Retail Holdings N.V. following the Company's Annual General Meeting on August 18, 2005; the name change was required as a consequence of the KSIN Transaction (see below).

The Company is a holding company whose subsidiaries are engaged in retail distribution of a wide variety of consumer durable products in selected emerging markets in Asia. Retail sales activities in these markets are strengthened by the offer of consumer credit services provided by the Company to qualified customers. The operating units in Asia are all owned by Singer Asia Ltd. ("Singer Asia") which is a 56.8% owned subsidiary of the Company.

On September 30, 2004, Singer completed the sale of the Singer worldwide Sewing business and of the ownership of the SINGER® trademark for a total consideration of approximately \$134.6 million to KSIN Holdings, Ltd. ("KSIN"), an affiliate of funds managed by Kohlberg & Co., LLC (the "KSIN Transaction"). The total consideration consisted of approximately \$65.1 million of cash, \$22.5 million in unsecured subordinated promissory notes (the "KSIN Notes") and the pay-off or assumption by KSIN of approximately \$47.0 million of sewing-related debt, subject to a post-closing price adjustment.

2. BASIS OF PRESENTATION

The accompanying unaudited condensed interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States for interim financial information. Accordingly, they do not include all of the disclosures required by generally accepted accounting principles in the United States for annual financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation of interim period results have been included. Operating results for the three and nine-month periods ended September 30, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's 2004 Annual Report dated April 2005.

Certain prior year amounts have been reclassified to conform to the 2005 presentation.

Recent Accounting Pronouncements

In December 2004, the FASB issued FASB Statement No. 123 (revised 2004), "Share-Based Payment," which addresses the accounting for transactions in which an entity exchanges its equity instruments for goods or services, with a primary focus on transactions in which an entity obtains employee services in share-based payment transactions. This Statement is a revision to Statement 123 and supercedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance.

This Statement will be effective for the Company as of January 1, 2006. The adoption of this standard will not have a material effect on the Company's financial condition or results of operations.

In December 2004, the FASB issued FASB Statement No. 151, "Inventory Costs," which clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). Under this Statement, such items will be recognized as current-period charges. In addition, the Statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. This Statement will be effective for the Company for inventory costs incurred on or after January 1, 2006. The adoption of this standard will not have a material effect on the Company's financial condition or results of operations.

In December 2004, the FASB issued FASB Statement No. 153, "Exchanges of Nonmonetary Assets," which eliminates an exception in APB 29 for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges for nonmonetary assets that do not have commercial substance. This Statement will be effective for the Company for nonmonetary asset exchanges occurring on or after January 1, 2006. The adoption of this standard will not have a material effect on the Company's financial condition or results of operations.

In December 2003, the FASB issued FASB Interpretation No. 46 (revised December 2003), "Consolidation of Variable-Interest Entities", which addresses how a business enterprise should evaluate whether it has a controlling financial interest in an entity through means other than voting rights and accordingly should consolidate the entity. The adoption of this standard did not have a material effect on the Company's financial condition or results of operations.

Quarterly principal receipts of \$135 are due commencing March 23, 2006, increasing to \$245 per quarter on December 23, 2006, continuing until March 23, 2009, at which time they reduce to \$95 per quarter until the note is fully paid on December 23, 2009.

The agreement resulted in a gain of \$2,308 which was recorded in discontinued operations. This gain was offset, in part, by additional termination benefits of \$994 during the nine months ended September 30, 2005 as part of the Company's ongoing efforts to reduce certain corporate administrative positions as a result of the sale of the Sewing business and trademark.

8. SHAREHOLDERS' EQUITY AND OTHER STOCK RELATED INFORMATION

A new common stock repurchase plan was announced on April 22, 2005. Under the plan, the Company has purchased 764,198 Shares and options as of September 30, 2005 for a total cost of \$4,835. The Shares purchased have been classified as Treasury Shares, reducing the number of issued and outstanding common shares by 701,948.

During 2004, the Company undertook a common stock repurchase plan. Under that plan, the Company purchased 375,185 Shares and options during 2004 for a total cost of \$1,714; the Company repurchased 186,278 Shares and options in 2005 (not included in the numbers in the above paragraph), under agreements negotiated during 2004, for a total cost of \$810. The Shares purchased have been classified as Treasury Shares, reducing the number of issued and outstanding Common Shares by 505,963. This common stock repurchase plan was terminated on January 24, 2005.

During 2004, the Company purchased allowed general unsecured claims against Old Singer which entitled the holder to 11,400 Common Shares of the Company; additionally, a subsidiary of Old Singer, in liquidation, made a final distribution, including a distribution to the Company, of 159,796 Common Shares. These Shares have been classified as Treasury Shares, reducing the number of issued and outstanding Common Shares by these amounts.

In September 2004, the Company entered into a settlement agreement with the Singer Creditor Trust that resulted in 312,631 Common Shares of the Company formerly held by subsidiaries, to be classified as Treasury Shares. Pursuant to the terms of the KSIN transaction, those Shares that were held by subsidiaries of the Company to be acquired by KSIN were acquired by the Company.

In March 2004, the Company purchased for one dollar the remaining 49% of the common shares and 100% of the preferred shares of Singer Italia SpA ("Singer Italy") that were previously owned by the minority shareholders. The Company reflected the resulting gain of \$2,269 as an increase to Additional paid-in-capital.

The following discussion and analysis should be read in conjunction with the audited consolidated financial statements of the Company for the twelve months ended December 31, 2004 and the unaudited consolidated financial statements of the Company for the nine months ended September 30, 2005 and 2004. This section contains forward-looking statements that are subject to the "Cautionary Statement With Respect To Forward-Looking Statements" appearing elsewhere herein. Risks to the Company are also discussed elsewhere herein.

Results Of Operations

Three Months Ended September 30, 2005 and September 30, 2004

For the third quarter of 2005 ended September 30, 2005, the Company reported consolidated revenues of \$67.5 million compared to \$59.9 million for the third quarter of 2004, an increase of \$7.6 million or 12.7%. The increase in revenues was primarily due to strong retail sales at almost all of the major Retail operating units in Asia, particularly in Sri Lanka, Thailand and Bangladesh. India's sales, however, were substantially below prior year. Excluding India, the Company would have shown an 18.9% revenue increase for the quarter.

The Company's revenues for the third quarter of 2005 include \$13.7 million of finance earnings on consumer credit sales compared to \$10.3 million in the third quarter of 2004. The increase in finance earnings is due primarily to increased credit sales in Thailand and Sri Lanka as a result of strong retail sales and promotion of credit, including longer average credit terms.

Gross profit for the three months ended September 30, 2005 was \$27.9 million, representing a gross profit as a percentage of revenues of 41.3%, as compared to \$24.3 million and a gross profit percentage of 40.5% for the three months ended September 30, 2004. The slight increase in gross profit percentage is primarily due to the increase in credit sales.

Selling and administrative expenses for the three months ended September 30, 2005 were \$26.2 million, representing 38.9% of revenues, as compared to \$25.0 million and 41.7% of revenues for the three months ended September 30, 2004. The decrease in selling and administrative expenses as a percentage of revenues is primarily due to the ongoing efforts to reduce corporate administrative positions as a result of the sale of the Sewing business and trademark. This was offset, in part, by India's significant decline in revenues without a corresponding decrease in fixed selling and administrative expenses. Excluding India, selling and administrative expenses as a percentage of revenue would have been 38.0% in the 2005 third quarter as compared to 41.0% in the 2004 third quarter.

Operating income for the three months ended September 30, 2005 was \$1.6 million as compared to a loss of \$0.7 million for the same period in 2004, while EBITDA (earnings before interest expense, taxes, depreciation and amortization) from continuing operations was \$4.2 million and \$0.6 million, respectively. The \$2.3 million increase in operating income and \$3.6 million increase in EBITDA were due to improved performance in Sri Lanka and the reduction in Corporate overhead expense. The increase in EBITDA also reflects an increase in other income.

Singer India has incurred substantial losses over the last several years. These losses are primarily a result of the inability of the operation through new initiatives to generate adequate sales volume, coupled with the high turnover of personnel, increased competition and, during 2004 and continuing into 2005, a severe liquidity crunch reflecting the impact of prior losses. On May 31, 2005, Singer India was registered as a "Sick Company" by the BIFR pursuant to the Sick Industrial Companies (Special Provisions) Act, 1985 of India. The registration provides certain legal protection against creditors.

There can be no assurance that BIFR registration or any other steps being taken by Singer India will permit a successful reorganization of that company. The survival and restructuring of Singer India will require the support and assistance of Singer India's banks and other stakeholders, which support has so far not been forthcoming. The Company has not guaranteed any debt or any other obligations of Singer India and has no legal obligation to provide any financial support.

Singer has established a new wholly owned subsidiary in India, which together with a third party distributor, will take on the role of distributing sewing machines and small appliances on a wholesale basis in India. Residual sourcing and retail activity may continue to be carried on by a smaller and more focused Singer India. Singer is also seeking to reduce its ownership stake in Singer India. Should a sufficient stake be sold and Singer India be deconsolidated, the Company would recognize a significant accounting gain from the reversal of prior losses in excess of that company's equity.

Interest expense was \$2.8 million and \$2.1 million for the three-month periods ended September 30, 2005 and 2004, respectively. The increase in interest expense reflects the increased financing required to support the increased installment receivables as a result of higher sales and promotion of credit, including longer average credit terms in Thailand and Sri Lanka.

Equity earnings from Operating Affiliates totaled \$0.5 million and \$0.2 million for the three-month periods ended September 30, 2005 and 2004, respectively. The \$0.3 million improvement was primarily due to increased income from an operating affiliate in Bangladesh.

Royalty expense was \$0.7 million and \$0.6 million for the three-month periods ended September 30, 2005 and 2004, respectively. The increase in royalty expense is due to increased revenues at Singer Asia. The royalty expense is for the use of the SINGER® trademark by the Retail Operating Companies in Asia.

Miscellaneous other income was \$1.7 million for the three-month period ended September 30, 2005 as compared to other income of \$0.2 million for the same period in 2004. Other income in 2005 includes a \$1.1 million gain resulting from a legal settlement of an outstanding obligation recognized as part of Singer's Reorganization in 2000 and \$0.7 million in interest income from investments and the KSIN and Jamaica notes receivable.

Provision for income taxes amounted to \$0.5 million in the three-month period ended September 30, 2005, as compared to a \$2.0 million tax provision for the same period in 2004. The \$1.5 million decrease in provision for income taxes primarily reflected the need to provide an additional valuation reserve of \$1.2 million for deferred taxes in India and the Philippines in 2004 and no such requirement this period.

Minority interest share in losses was \$0.3 million for the 2005 third quarter compared to \$0.9 million for the same period in 2004. The decrease in minority interest share in losses was primarily due to increased profitability in the Retail operating units in Asia, particularly in Sri Lanka and Bangladesh.

The Company's income from continuing operations was \$0.2 million for the three months ended September 30, 2005 as compared to a loss of \$4.2 million in 2004. The improvement in income from continuing operations of \$4.4 million was primarily due to improved performance at the operating units, particularly in Sri Lanka and the Philippines, the increase in miscellaneous other income and reduction in corporate overhead expense.

Income from discontinued operations for the three months ended September 30, 2005 was \$nil as compared to income of \$2.4 million for the same period in 2004. The income from discontinued operations in 2004 was primarily due to income from operations of the Sewing business and trademark that were sold as part of the KSIN transaction.

The net income available to common shares for the three months ended September 30, 2005 was \$0.2 million as compared to a net loss of \$1.8 million for the same period in 2004. This is equivalent to basic and diluted income per common share of \$0.03 for the three months ended September 30, 2005 as compared to a net loss of \$0.23 per common share for the same period in 2004.

Nine Months Ended September 30, 2005 and September 30, 2004

For the nine months ended September 30, 2005, the Company reported consolidated revenues of \$231.4 million compared to \$193.0 million for the same period in 2004, an increase of \$38.4 million or 19.9%. The increase in revenues was primarily due to strong retail sales at almost all of the major Retail operating units in Asia, particularly in Thailand, Sri Lanka and Bangladesh. India's sales, however, were substantially below prior year. Excluding India, the Company would have shown a 29.3% revenue increase for the nine months.

The Company's revenues for the nine months ended September 30, 2005 include \$40.1 million of finance earnings on consumer credit sales compared to \$30.3 million for the same period in 2004. The increase in finance earnings is due primarily to increased credit sales in Thailand and Sri Lanka as a result of strong retail sales and promotion of credit, including longer average credit terms.

Gross profit for the nine months ended September 30, 2005 was \$89.0 million, representing a gross profit as a percentage of revenues of 38.5%, as compared to \$76.6 million and a gross profit percentage of 39.7% for the nine months ended September 30, 2004. The slight decline in gross profit percentage is primarily due to a shift in Thailand's sales mix from appliances to motorcycles, which have a lower gross profit contribution.

Selling and administrative expenses for the nine months ended September 30, 2005 were \$80.8 million, representing 34.9% of revenues, as compared to \$71.7 million and 37.1% of revenues for the nine months ended September 30, 2004. The decrease in selling and administrative expenses as a percentage of revenues is primarily due to Thailand's significant sales increase which exceeded the increase in Thailand's fixed selling and administrative expenses and a reduction in corporate overhead expense. This was offset, in part, by India's significant decline in revenues without a corresponding decrease in fixed selling and administrative expenses. Excluding India, selling and administrative expenses as a percentage of revenue would have been 34.0% in the nine months ended September 30, 2005 as compared to 37.4% for the same period in 2004.

Operating income for the nine months ended September 30, 2005 and 2004 was \$8.2 million and \$4.9 million, respectively, while EBITDA from continuing operations was \$10.1 million and \$4.8 million, respectively. The \$3.3 million increase in operating income and \$5.3 million increase in EBITDA were due to improved performance at the operating units, particularly in Sri Lanka and the Philippines, coupled with a reduction in Corporate overhead expense.

The losses incurred at Singer India and the status of that company and of Singer's operations in India are reviewed in detail in the discussion of the three months results, above.

Interest expense was \$7.1 million and \$6.2 million for the nine-month periods ended September 30, 2005 and 2004, respectively. The increase in interest expense reflects the increased financing required to support the increased installment receivables as a result of higher sales and promotion of credit, including longer average credit terms in Thailand and Sri Lanka.

Equity earnings from Operating Affiliates were \$0.4 million during the nine-month period ended September 30, 2005 as compared to a loss of \$0.6 million for the same period in 2004. The \$1.0 million improvement was primarily due to lower losses at First Capital Ltd., an operating affiliate in Sri Lanka.

Royalty expense was \$2.3 million and \$1.9 million for the nine-month periods ended September 30, 2005 and 2004, respectively. The increase in royalty expense is due to increased revenues at Singer Asia. The royalty expense is for the use of the SINGER® trademark by the Retail Operating Companies in Asia.

Miscellaneous other income was \$2.9 million for the nine-month period ended September 30, 2005 as compared to other income of \$1.7 million for the same period in 2004. Other income in 2005 includes \$2.1 million in interest income from investments and the KSIN and Jamaica notes receivable, a \$1.1 million gain resulting from a legal settlement of an outstanding obligation and a \$0.5 million gain on sale of property, which was partially offset by foreign exchange losses of \$1.1 million. The other income for 2004 was primarily gains on sale of property in Thailand and Indonesia.

Provision for income taxes amounted to \$3.3 million in the nine-month period ended September 30, 2005, as compared to a \$4.6 million tax provision for the same period in 2004. The \$1.3 million decrease in provision for income taxes is primarily due to the absence in 2005 of the need for an additional valuation reserve for deferred taxes as compared to a provision of \$1.2 million in 2004.

Minority interest share in income was \$1.2 million for the 2005 period compared to \$1.4 million for the same period in 2004. The decrease in minority interest share in income was primarily due to the lower net income at Singer Asia.

The Company's loss from continuing operations for the nine months ended September 30, 2005 and 2004 was \$2.4 million and \$8.2 million, respectively. The improvement of \$5.8 million is primarily due to the increase in operating income coupled with the increase in miscellaneous other income and decrease in the income tax provision.

Loss from discontinued operations for the nine months ended September 30, 2005 and 2004 was \$0.4 million and \$22.3 million respectively. The loss in 2005 was due to the loss on the sale of Jamaica, net of earnings from operations, of \$1.7 million, and additional termination benefits of \$1.0 million, which were offset, in part, by the final post closing purchase price adjustment relating to the KSIN transaction, which resulted in a gain of \$2.3 million. The loss from discontinued operations in 2004 was primarily due to the loss on sale of the Sewing business and trademark, the KSIN transaction, of \$36.4 million, which was partially offset by earnings from operations of the Sewing business and trademark prior to sale of \$13.7 million.

The net loss available to Common Shares was \$2.8 million and \$30.5 million for the nine months ended September 30, 2005 and 2004, respectively. This is equivalent to basic and diluted loss per Common Share of \$0.48 and \$3.88, respectively.

Liquidity and Capital Resources

Nine Months Ended September 30, 2005 and September 30, 2004

For the nine months ended September 30, 2005, the Company had a net cash outflow from operations of \$50.3 million. This was primarily due to a \$45.9 million increase in account receivables and installment receivables due more than one year, a \$5.8 million decrease in accounts payable and accrued expenses, a \$4.6 million increase in inventories, and a \$3.9 million increase in other current assets. The increase in accounts receivable and installment receivables due more than one year reflects the strong growth in sales and increased promotion of consumer credit, including longer average credit terms.

Net proceeds from investing activities was \$1.5 million, which consisted of proceeds of \$2.7 million from the sale of Singer Jamaica, \$1.8 million from the purchase price adjustment for the KSIN transaction and

\$0.5 million from sale of property, which were offset, in part, by capital expenditures of \$3.5 million. The increase in notes and loans payable amounted to \$19.0 million while additions to long-term debt net of repayments totaled \$26.7 million.

Purchase of treasury stock and options net of proceeds from stock options exercised utilized \$5.3 million. As a consequence of these purchases and the exercise of options, shares issued and outstanding declined from 5,984,375 as of December 31, 2004 to 5,184,536 as of September 30, 2005, and options outstanding declined from 675,764 as of December 31, 2004 to 335,500 as of September 30, 2005. Dividend payments by subsidiaries to minority shareholders totaled \$1.4 million. The net effect was a decrease in cash and cash equivalents by \$7.4 million to \$32.6 million at September 30, 2005.

For the nine months ended September 30, 2004, the Company had a net cash outflow from operations of \$23.9 million. This was primarily due to a \$21.3 million increase in accounts receivable and installment receivables due more than one year, a \$7.6 million increase in other assets net of other liabilities and a \$3.2 million increase in inventories, which were partially offset by a \$6.8 million increase in accounts payable and accrued expenses. Net proceeds from investing activities was \$64.7 million, which consisted of proceeds of \$65.1 million from the sale of the Sewing business and trademark, and \$2.7 million from the sale of property, which were offset, in part, by capital expenditures of \$2.8 million. The decrease in notes and loans payable amounted to \$1.7 million while repayments of long-term debt net of additions totaled \$8.4 million. Purchase of treasury stock and options net of proceeds from stock options exercised utilized \$1.0 million. Dividend payments by subsidiaries to minority shareholders totaled \$2.8 million. The net effect was an increase in cash and cash equivalents by \$27.1 million to \$54.7 million at September 30, 2004.

Working capital as of September 30, 2005 of \$75.8 million showed a decrease of \$23.5 million from the \$99.3 million of working capital as at December 31, 2004. This decrease was primarily due to the increase in installment receivables due in excess of one year, especially in Thailand, which receivables are not included in working capital (see Note 3).

The liquidity position of Singer India remains extremely serious. On May 31, 2005, Singer India was registered as a "Sick Company" by the BIFR pursuant to the Sick Industrial Companies (Special Provisions) Act, 1985 of India. The registration provides certain legal protection against creditors. The Company has not guaranteed any debt or any other obligations of Singer India and has no legal obligation to provide any financial support.
